

A male athlete with short brown hair, wearing a red and white athletic jersey, is shown from the chest up. He is smiling and looking towards the right. He is holding a volleyball with both hands. A blue mouthguard is visible in his mouth. The background is a bright, slightly cloudy sky.

Dreve

Dreve Mouthguard

Perfect athletic mouth protection
for sports competitions, training
and recreational sport

Your mouthguard

**Top protection – fits perfectly, sits perfectly.
And looks good too!**

Dreve Mouthguards are the worldwide professional oral protection system for sports competitions, training and recreational sports precisely matched to your sport and age group. An original Dreve Mouthguard is always a laminate consisting of several extremely durable foils and is manufactured under high pressure (6 bars). This guarantees the durability of the laminate – a key property for optimum shock absorption and a secure fit.

Dreve Mouthguards allow you to easily breathe, swallow and speak. This is why our mouthguards are indispensable to many professional athletes. Unlike the "boil and bite" splints, Dreve Mouthguards are manufactured by true specialists: fitted by the dentist for guaranteed precision, custom made in the dental laboratory. Always adapted to your own specific requirements.

Your mouthguard type

- **Junior** for children and adolescents
- **Senior** for adults and most amateur athletes
- **Elite** for martial artists
(featuring a cushioned inlay for better shock absorption)
- **Professional** for athletes of icesports
(featuring a hard protective splint for the anterior teeth)

Junior

Elite

Professional

Benefits

- Unique safety features
- Protection for all areas of the head (concussion), teeth, gingiva, tongue, lips, jawbone and joints.
- Custom made, fits and sits perfectly
- Allows you to breathe and speak easily
- Custom manufactured in the dental laboratory

A high-quality product

Thanks to the high-tech materials and a special manufacturing procedure, the splint fits so precisely that you are able to easily speak, drink and breathe when wearing it. Your personal mouthguard is manufactured by specially trained dental technicians in collaboration with your dentist.
