TMJ disorder? StoneBite®

Bite registration StoneBite®:

- **Fast, platinum-catalysed bite registration material**
- **Perfected for TMJ disorder applications**
- **HIBC-Code on each cartridge**

Drewe Design Rev.231015-DU231015-500-D-770309

"I expect high precision, excellent reproducibility and stability from a perfect bite registration material in the long run. This is the foundation of my treatment success. I always prefer temperature neutrality and a good setting performance."

"Especially on complex TMJ disorder treatments an exact representation is important to me. Our dental technicians also extremely happy with the precise processing."
