Replaces Version: - / GB

Date revised: 17.05.2023 Print date: 17.05.2023

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier

Silfix Comp. A

1.2. Relevant identified uses of the substance or mixture and uses advised against

Use of the substance/preparation

Precise embedding material for the complete denture

1.3. Details of the supplier of the safety data sheet

Address/Manufacturer

Dreve Dentamid GmbH Max-Planck-Straße 31 59423 Unna Telephone no. +49 2303 8807-0 Fax no. +49 2303 8807-29 Information provided Department Research & Development: Fax: +49 2303 8807-562 by / telephone E-mail address of sicherheitsdatenblatt@dreve.com person responsible for this SDS

1.4. Emergency telephone number

Henkel Fire Department / 24h-Emergency-Contact-No.: +49 211 797-3350

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

This product is not classified hazardous in accordance with Regulation (EC) No 1272/2008.

2.2. Label elements

Labelling according to regulation (EC) No 1272/2008

Supplemental information

EUH210 Safety data sheet available on request.

2.3. Other hazards

No special hazards have to be mentioned.

The product contains no PBT substances. The product contains no vPvB substances. This product does not contain a substance that has endocrine disrupting properties with respect to human. The product does not contain a substance that has endocrine disrupting properties with respect to non-target organisms.

SECTION 3: Composition/information on ingredients

3.2. Mixtures

Suitable extinguishing media

Recommended: alcohol resistant foam, CO2, powders, water spray/mist, Extinguishing measures to suit surroundings

Non suitable extinguishing media

Full water jet

5.2. Special hazards arising from the substance or mixture

In case of combustion evolution of dangerous gases possible.

5.3. Advice for firefighters

Special protective equipment for fire-fighting

In case of combustion use a suitable breathing apparatus.

Other information

Fire residues and contaminated fire-fighting water must be disposed of in accordance with the local regulations.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

Avoid contact with skin, eyes and clothing.

6.2. Environmental precautions

Do not allow to enter drains or waterways.

6.3. Methods and material for containment and cleaning up

Pick up mechanically. Clean contaminated floors and objects thoroughly, observing environmental regulations.

6.4. Reference to other sections

Refer to protective measures listed in Sections 7 and 8.

SECTION 7: Handling and storage

7.1. Precautions for safe handling

Advice on safe handling

Observe the usual precautions for handling chemicals. For personal protection see Section 8.

Advice on protection against fire and explosion

No special measures required.

7.2. Conditions for safe storage, including any incompatibilities

Requirements for storage rooms and vessels

Store product in closed containers.

Hints on storage assembly

Do not store together with foodstuffs.

Further information on storage conditions

Keep container tightly closed and dry.

SECTION 8: Exposure controls/personal protection 8.1. Control parameters **Exposure limit values** White mineral oil **TRGS 900** List AGW Type А Value 5 mg/m³ Short term exposure limit 20 mg/m³ Maximum limit value: 4(II) Pregnancy group: Y; Status: Sept 2015; Remarks: DGF Other information Contains no substances with occupational exposure limit values. Derived No/Minimal Effect Levels (DNEL/DMEL) White mineral oil Type of value Derived No Effect Level (DNEL) Reference group Worker Duration of exposure Repeated exposure Route of exposure inhalative Mode of action Systemic effects Concentration mg/m³ 164,6 Type of value Derived No Effect Level (DNEL) Reference group Worker Duration of exposure Repeated exposure Route of exposure dermal Mode of action Systemic effects Concentration 217,1 mg/kg/d Type of value Derived No Effect Level (DNEL) Reference group Consumer Duration of exposure Repeated exposure Route of exposure inhalative Mode of action Systemic effects mg/m³ Concentration 34,78 Type of value Derived No Effect Level (DNEL) Reference group Consumer Duration of exposure Repeated exposure Route of exposure dermal Mode of action Systemic effects Concentration 93,02 mg/kg/d Type of value Derived No Effect Level (DNEL) Reference group Consumer Duration of exposure Repeated exposure Route of exposure oral Mode of action Systemic effects Concentration 25 ma/ka/d

8.2. Exposure controls

Substance number: 34701

Version: 1 / GB Replaces Version: - / GB Date revised: 17.05.2023 Print date: 17.05.2023

General protective and hygiene measures

Observe the usual precautions for handling chemicals. Do not eat, drink or smoke during work time. Wash hands before breaks and after work. Avoid contact with eyes.

Respiratory protection

Not necessary.

Hand protection

Not necessary.

Eye protection

Not necessary.

Body protection

Clothing as usual in the chemical industry.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Physical state	liquid		
Colour	white		
Odour	characteristic		
Melting point			
Remarks	not determined		
Freezing point

White mineral oil

Harmful: may cause lung damage if swallowed.

11.2 Information on other hazards

Endocrine disrupting properties with respect to humans

The product does not contain a substance that has endocrine disrupting properties with respect to humans.

Other information

No toxicological data are available.

SECTION	12: Ecolo	dical in	formation

12.1. Toxicity

General information

not determined

Fish toxicity (Components)

White mineral oil Species LC50 Duration of exposure Method	golden orfe (Leuciscus idus > 10000 96 h OECD 203) mg/l
Daphnia toxicity (Compone	1(5)	
White mineral oil Species LL50 Duration of exposure Method White mineral oil	Daphnia magna > 100 48 h OECD 202	mg/l
Species NOEC Duration of exposure Method	Daphnia magna 10 21 d OECD 211	mg/l
Algae toxicity (Components		
White mineral oil Species LOEC Duration of exposure Method	Pseudokirchneriella subcap >= 100 72 h OECD 201	itata mg/l
12.2. Persistence and degrad General information not determined		
Biodegradability (Compone	nts)	
White mineral oil Value Duration of test evaluation	31 28 d biodegradable	%

12.3. Bioaccumulative potential

Trade name: Silfix Comp. A		
Substance number: 34701	Version: 1 / GB	Date revised: 17.05.202
	Replaces Version: - / GB	Print date: 17.05.202
Open and information		
General information not determined		
Partition coefficient n-oc	tanol/water (log value)	
Remarks	not determined	
Octanol/water partition c	oefficient (log Pow) (Components)	
White mineral oil		
log Pow	<= 4,3 to 18.2	
Temperature Source	20 °C calculated value	
12.4. Mobility in soil		
General information		
not determined		
12.5. Results of PBT and vi	PvB assessment	
General information		
not determined		
Results of PBT and vPvB	assessment	
The product contains no F	BT substances	
The product contains no v	PvB substances.	
12.6 Endocrine disrupting	properties	
Endocrine disrupting pro	perties with respect to the envrionment	
The product does not cont	ain a substance that has endocrine disrupting p	roperties with respect to non-
target organisms.		
12.7. Other adverse effects		
General information		
not determined		
General information / eco	blogy	
Do not allow to enter soil,	waterways or waste water canal. Avoid release i	nto the atmosphere.
SEC	TION 13: Disposal consideration	ns
13.1. Waste treatment meth	nods	
Disposal recommendatio	ns for the product	
Must not be disposed toge	ther with household garbage.	
Dispose of waste accordin	g to applicable legislation.	
Disposal recommendation		
	cleaned should be disposed off in agreement wi	th the regional waste disposal
company.		
SF	CTION 14: Transport information	n

Substance number: 34701

Version: 1 / GB
