

FotoClean

Technical Data Sheet

Product description: Ready to use, water-based solution for the cleaning of additively manufactured parts

Manufacturer: Dreve Dentamid GmbH
Max-Planck-Straße 31
59423 Unna / Germany

Composition:

Pos	chemical term
1	Distilled water
2	Additives

Color: white

Properties:
density: approx. 0.98 g/ml
pH-value: neutral
Vapour pressure: approx. 20 mbar at 20 °C
Water solubility: completely miscible
Application temperature: 18-40 °C

Errors excepted.

Our products are subject to constant further development. We reserve the right to changes of the material properties, these can also occur without prior notice.

These data result from measurements which are executed from time to time in view of our quality management system.
